TODD Sexton
LEGAL EXPERT ON CYBER-SECURITY

CEO & PRESIDENT, IDENTILLECT TECHNOLOGIES

Email: todd.sexton@identillect.com
Phone: 949.215.1244

LEGAL EXPERT ON CYBER-SECURITY AND DATA HANDLING REGULATIONS:

Todd is an accomplished speaker and author in the field of cyber security and data handling regulation. Specifically focused on helping lawyers understand technology, he spends a tremendous amount of effort assisting the legal community on the advancing data handling regulations, cyber-security threats, and wire fraud/data tampering. He focuses on the use of encryption technology, educational awareness, and utilizing advanced technologies such as Artificial Intelligence (AI) and Blockchain technology. He also speaks on the ethical concerns as it relates to law firms as well as Bar Associations, Todd has 2 cyber-security technology patents and has 4 more pending.

ABOUT

Todd Sexton, MBA, Chief Executive Officer at Identillect Technologies. Over the past 15 years Todd has focused on cyber security compliance in an ever-changing landscape of regulatory requirements. Todd continually lectures and authors on security and compliance throughout the US.

He advises on a variety of cybersecurity topics and speaks regularly on Data Privacy laws and Industry Data Handling Regulations. Todd is a published writer on Cyber-Security and lectures, consults and mentor’s compliance and cyber security professionals in many verticals including legal, medical, real-estate, escrow, finance and IT.

LECTURE PROFILE AND DIRECTION:

Cyber criminals are targeting the legal industry based on the type of information being transmitted. Education is critical to overcoming the vulnerabilities of digital communication along with understanding the changing regulatory landscape.

Todd works with a multitude of Bar Associations across the country providing education on changing regulations and cyber-security threats. Through the utilization of technologies such as encryption, blockchain, and artificial intelligence he defines how you can combat these vulnerabilities. Todd provides a unique way to understand cyber threats and how to overcome them through technology and education.

SPECIFIC EXPERTISE:

- Statistics on the likelihood of having a cyber- security breach
- Changing landscape of legal regulations
- Understanding client’s regulations which affect fiduciary responsibilities.
- Educate on how to identify and prevent cyber-attacks
- Consequences of regulatory violations
- Educate on the utilization of AI, Encryption and Blockchain to overcome cyber-threats
“Todd did an outstanding job of providing our attendees with a working/functional knowledge of some of the most pressing challenges facing attorneys. Moreover, he also, in an easy and approachable way, provided practical solutions/considerations that our attendees could use in their practices. Simply put, Todd's program was excellent, and he's a forward-thinking expert that our constituents enjoyed learning from.”

- Dr. Robert Spangler Associate Executive Director of New Jersey State Bar Association

“We are grateful for Todd Sexton’s presentation which our members described as “practical” and “outstanding”. The Arkansas Bar Association continues to look for ways to ethically and economically advance its members’ practices and interests.”

- Brian Rosenthal President, Arkansas Bar Association

“If you want to sit front row to a cutting-edge cyber-security lecture, please join the best in the industry-Identillect CEO Todd Sexton! Members of the Arkansas Bar Association have partnered with Identillect to provide clients, colleagues and business partners with more secure emails and documents. I decided it was high time for me to stop losing sleep or feeling regret after hitting the send key. With Identillect, I will reduce or eliminate the cyber security blues in my business!”

- Kandise Bell, Member of the Arkansas Board of Governor

“I learned some valuable insight on how I can avoid certain actions that could potentially expose my personal information to hackers. The course was well presented, professional and well worth attending.”

- Terri Yurek, Member of San Diego Association of Health Underwriters

"Todd's presentation was both timely and informative. He provided attendees with simple tips to protect their personal information as well as that of their clients'. It was clear that Todd is very passionate about this topic and in helping attorneys navigate cyber security."

- Susan Koplin, Director of Legal Certification at Minnesota State Bar Association
